Subject: Fw: Draft Final SERAS Data Validation Procedures Memo

Hi Cindy -

I am forwarding the attached draft memo which was prepared by: **Ex. 4 - CBI** (SERAS) to provide a highly technical discussion of the project level review. The memo specifically focuses on SERAS's data review and validation procedures. While this is the contractor's work product, we would the QASQA Branch to review the memo and let us know whether you have any comments or questions - especially where the lab's process/role is referenced.

I will also be forward two companion pieces to SERAS's memo later today - hopefully by 2 pm. One is 5 page draft memo which provides a technical summary of the overall data collection, validation and review process for this project. While it is still a technical document, we are trying to make it somewhat user friendly while assuring that it remains technically accurate. You will see where we really need OASQA's input. The other document is a draft executive summary of the data process.

We are requesting that QASQA to review all 3 documents. As usual - there is a tight turn-a-round on the review. We need your initial comments no later than 2 pm on Thursday June 7th. We must forward the documents to the HQs EU on Friday June 8th - any would like the lab's input prior to sending the documents to HQs,

I am in a training class this week - but am stepping out as necessary to work on this matter. Please do not hesitate to contact me with any questions.

Thanks - Kelley
